CNSL gave their approval on this event. I'll add it to your calendar and the daily digest.

Thank you,
Julie

Hi Andy,

Thanks for the invitation to speak to your leadership grads on 22 Aug. I've asked my assistant to check my calendar and to run the usual check: I want to give this talk, and we should be able soon to confirm.

I have heard only positives recently from Cecilia about the joint agency work at West Lake, and appreciate your and St Louis District's cooperative approach to assisting the EPA.

Look forward to seeing you soon.

Cheers,
Karl

Karl,

I trust this email finds you well.

I have meant to call you a couple of times over the past few weeks.

Wanted to touch base with you and make sure you are satisfied with our support to Westlake. I take not hearing anything to the contrary is a good sign.

It took a bit longer than I had anticipated to sort out internal cross-border USACE issues, but I believe we are now in full alignment, and supporting EPA in a desirable manner.

We had a good session the other day at our line item review with your folks and representatives from the states.

As you may know we run a Leadership Development Program (LDP) in the KC District for a small selection of our junior personnel . This year's class of eight employees is scheduled to graduate from their initial year on 22 Aug at 1:00pm. The group assembled the other week and talked about who they would like to speak at their graduation and your name came to the top of their list.

Would you be interested in presenting 10 to 15 minutes of remarks at our annual LDP graduation this year? If you can find it possible to add us onto your calendar, I can provide you with the necessary details of the program, the students, etc that would assist in preparing remarks.

Thanks for your consideration.

Andy
